PERSONALISED CARE FOR ALL

PROMOTING

WHAT MATTERS

'What Matters to People', as opposed to 'What's the Matter with Them' is the cornerstone of the NHSE Plan for Personalised Care. The QNI and PCI provide a range of resources and opportunities for nurses and students to access. Here we describe opportunities that are open to qualified nurses and student nurses to help engender personalised approaches to care.

The Queen's Nursing Institute (QNI) is a registered charity, dedicated to improving nursing care for people in the home and community.

Each year the QNI offers a limited number of places on its Community Nursing Innovation Programme, which is a nurse-led programme dedicated to improving patient care. Organisations are invited to purchase a place on the programme thereby taking advantage of the QNI's 30 years of expertise in delivering successful innovation projects - this includes workshops and a diverse portfolio of support over the project year.

**HOW TO ACCESS:**

Go to: [www.qni.org.uk/nurse-led-projects/](http://www.qni.org.uk/nurse-led-projects/) or email Amanda Young, Nursing Programmes Manager (Innovation), [amanda.young@qni.org.uk](mailto:amanda.young@qni.org.uk)

The Personalised Care Institute (PCI) is accountable for setting the standards for evidence-based training in personalised care in England.

It offers a range of free, quality-assured e-Learning modules, webinars, podcasts and resources to help people get more involved in decisions about their care.

Choose from: Core Skills in Personalised Care; Shared Decision Making; Personalised Care and Support Planning Personalised Care and Support Planning (Maternity); Remote Consultations.

**HOW TO ACCESS:**

You will need to set up an account using the following link: <https://learn.personalisedcareinstitute.org.uk/login/signup.php>
